

UNITED INDUSTRIES

Stainless Steel Tubing Custom Cutting & Fabricating

Advanced Laser Cutting Equipment

When you need a custom piece of stainless steel tubing to precisely fit your application, United Industries Cutting and Fabricating is a cut above the rest. We utilize the latest multi-axis laser cutting machines to provide you with a cost-effective solution, no matter how complex the cutting design.

Taking A Flexible Approach

You can expect precision, laser-cut pieces with excellent edge quality, including square cut. Special markings on pieces can be customized with needed information. We have the flexibility to meet your special requirements.

Producing High Quality Custom Parts

Our staff of design and engineering specialists will work with you to produce a custom piece to fit your exacting specifications. Our quality system adheres to the high standards established by ISO 9001:2015 and IATF:2016. Visual, check fixtures, gauges and CMM inspection ensures that each piece will be of the highest quality.

The United Difference - Laser-Welded Tubing For Maximum Performance

Since demanding applications require the highest quality tubing, United Industries has been perfecting its laser welding capabilities since 1992, using a high-energy density process. Our 100% laser welded tubing has less potential for corrosion in the weld area; full finished tube appearance; superior performance.

Producing Cutting Edge Stainless Steel Tubing

We serve a variety of markets, specializing in automotive, Class 8 heavy truck and construction, off-road machinery, agricultural, ornamental, and marine. We also provide tube processing and miscellaneous fabricating.

Capabilities:

- Tube processing
- Custom fabrication
- Punching & forming
- Robotic Weld Cell
- Perforating
- Laser cutting - ends
- Polishing & buffing
- Expanding
- Flaring
- Laser cut slots & holes
- Mitters & copes (custom profiles)
- Flanging
- Custom precision tube bending
- Stainless steel tube end forming
- Multi-axis tube laser cutting
- Square and rectangular tube cutting
- Ovals
- Custom shapes
- Tube reduction

Equipment:

MULTI-AXIS LASER CUTTING MACHINES:

- Trumpf
- BLM

CUTS UP TO :

- Diameter: 1/2" - 6"
- Length: 1/8" - 48"
- Wall Thickness: up to 0.197"
- Dimensional
